S.H.N.V. Matric Higher Secondary School, Sivakasi 92%

## PROJECTS

### Smart Restaurant Management

Live Link : [msvrestaurant.vercel.app](https://msvrestaurant.vercel.app)

- Developed a full-stack Restaurant Management System with QR-based digital ordering.
- Implemented role-based access (Admin, Chef, Supplier, User) and real-time order tracking via Socket.IO.
- Integrated Razorpay for payments and secured authentication using JWT.
- Full-stack MERN app with TailwindCSS styling and real-time updates via Socket.io.

### Website for V Print Tech

Live Link : [vprinttech.netlify.app](https://vprinttech.netlify.app)

- Developed and deployed a scalable React.js website on Netlify, featuring pages like Home, About, Services, Gallery, Infrastructure and Contact
- Integrated a feedback form on the Contact page, with user submissions handled via Node.js and Express.js, stored in MongoDB, and accessible to the admin for review.
- Designed a modern, responsive UI using TailwindCSS to ensure a seamless user experience across devices.

### My Portfolio

Live Link : [satheeshbaabum.netlify.app](https://satheeshbaabum.netlify.app)

- Designed a responsive and interactive website using React to showcase projects, skills, and achievements optimized for all devices.
- Implemented smooth animations, transitions, and a downloadable resume feature to enhance user engagement.
